PROFESSIONAL EXPERIENCE

Founder | Constructing Architect & Construction Manager

MARIEDOM, Ibiza

Present

Architecture, Interior Design, Visualisation, Feng Shui & Bioarchitecture

- Developing architectural, interior design and visualisation projects for residential and hospitality spaces.
- Producing design concepts, BIM models, technical documentation, site plans, construction budgets and project visualisations.
- Coordinating project development and on-site execution from concept through construction.

Architect & Construction Manager

All Solutions, Ibiza

2022–2025

- Led architectural and interior design development for villas, restaurants and beach clubs, including multiple projects at O Beach Ibiza.
- Coordinated contractors, suppliers and technical teams throughout design and construction.
- Managed resources, budgets, timelines, certifications and quality standards.

Architect

Blakstad, Ibiza

2021–2022

- Developed high-end residential villa projects through BIM modelling, design development and technical coordination.
- Produced Revit models, AutoCAD drawings and interior documentation for bespoke residential projects.

Site Planner

Philips, Online

2020–2021

- Prepared architectural floor plans and site layouts for medical equipment installations, coordinating technical information and adapting proposals to site requirements.

Construction Architect Intern

JAJA Architects, Copenhagen

2017–2018

- Contributed to the development of a 1,500 m² residential facility for children and young people with autism.
- Supported selected areas of the Revit model and prepared CAD drawings, technical documentation and construction details.
- Developed a construction design manual and assisted with material research and technical solutions.
